JERRY COIN

Jerry coin was launched on February 2022 by Tomoshi Nekomoto as a community driven project with big goals with big funding. Jerry coin describes itself as a project that P2E game.

SECURITY AND TRANSPARENCY

An important factor for everyone is security and transparency. Therefore, the developers of Jerrycoin have decided to fully secure the initial capital and liquidity of the project by sending it in its entirety to the forever locked LP address. It is impossible to reverse this process. This is the highest form of security that can be offered. Transparency is ensured by the fact that no personal contribution was retained before the token was made available. The former Creator Wallet contains about 5% of the total supply, which was purchased by Pancakeswap at a later date. The purchased shares will be used to fund All Tom coin futures projects over an extended period of time. This process will be done piece by piece and always in discussion with the community. A large sale at any point in time is not intended to provide stability.
